**Personal Statement**

Seeking admission to the Master of Science in Computer Science (MSCS) program to strengthen my knowledge and research capabilities in software engineering, artificial intelligence (AI), web technologies, and intelligent automation. Throughout my academic and practical experience, I have developed full-stack web applications using the MERN stack and modern frameworks such as React.js and Next.js. My projects have involved RESTful API development, database design with MongoDB, third-party API integration, and responsive user interface development, enabling me to solve real-world technical challenges. These experiences have enhanced my problem-solving, analytical thinking, and software development skills while exposing me to modern technologies and scalable application design. I am particularly interested in exploring AI-driven applications, intelligent systems, cloud computing, and data-driven software solutions through advanced research and coursework. I am drawn to this MSCS program because of its emphasis on innovation, research excellence, and practical learning, where I can further develop my technical expertise and contribute to impactful research.

**Field of Interests**

Artificial intelligence | Internet of things | Marketing Science | Scientifics Research| Teaching | Machine learning | Deep learning | Networking | Cyber security | Robotics |

**Education & Training**

Bachelor of Science in Computer Science  
From  
University of Baltistan Skardu (2023-2027)

Intermediate  
From  
Public School and College Skardu (2019-2021)

Matriculation  
From  
Baltistan Public School and College Skardu (2017-2019)

**Submitted article**

**Title:** Policy Journal of Social Science Review Leveraging Artificial Intelligence for Enhanced Mathematics Instruction Among College Students.

**Authors:** Imran Nazir, Zeeshan Haider, Shahbaz Qasim, Sadia Bilal

**Title:** The Critical Review of Social Sciences Studies Curriculum for a Sustainable Future: Integrating SDGs into Teaching and Learning

**Authors:** Dr. Bushra Naz , Zeeshan Haider

**Title:** Curriculum for a Sustainable Future: Integrating SDGs into Teaching and Learning

**Authors:** Dr. Bushra Naz , Zeeshan Haider

---

## RESEARCH SKILLS

- Writing in AI Fields
- Writing in the Marketing Science
- How to Write and Publish a Scientific Paper
- Understanding Research Methods
- An editor's guide to writing a review article (Researcher Academy)

---

## Software Skills

### ● Next js, Mern Stack, AI Model Training, MS Office

Proficient in a diverse range of software tools including Next js, Mern Stack, AI model Training, Scientific Workplace, and MS Office Strong track record of leveraging these applications to conduct complex data analysis, and scientific document preparation Use of these softwares for data-driven decision-making in various academic and professional contexts

---

## Other SKILLS

- Fast learner
- Effective motivation power
- Good in English speaking and listening
- Excellent leadership skills
- Positive attitude toward teamwork
- Problem Solving
- Team Work
- Effective Communication

---

## HONORS AND CERTIFICATION

- Six Month Web Development Certificate From NetBot Pvt.ltd
  - 3 Month Vibe Coding From NetBots Pvt.ltd
  - 3 Month Advance Web Development Certificate Under Hazara University at University Of Baltistan,Skardu
  - Genrative AI Mastermind Under Outskills
  - 8 Month Development Experience at NetBots Pvt.ltd
  - Received PM Laptop under PM's Youth Laptop Scheme Programe 2025
-
